## Thank you for choosing DNBN Samples.

Every sound in this product was designed and produced by DNBN. Here is what you can and can't do with it, followed by the full agreement.

# End User Licence Agreement

VERSION 2.0 · 1 NOVEMBER 2026 · APPLIES TO EVERY DNBN SAMPLES PRODUCT, PAID OR FREE

### YOU CAN

- ✓ Use the Sounds in **unlimited** original tracks, commercial or non-commercial — **100% royalty-free**, forever.
- ✓ Release your tracks on **labels, Spotify, Apple Music, Beatport, YouTube, SoundCloud** and keep all royalties.
- ✓ Register **your own compositions** with SIAE, PRS, ASCAP or any collecting society.
- ✓ Use the Sounds for **ghost production** and client work, as part of a finished track.
- ✓ Use them in music for **film, TV, games, adverts, podcasts** and live/DJ performance.
- ✓ Edit, process, layer, re-pitch and re-sample the Sounds in your music.

### YOU CAN'T

- ✗ **Share**, upload or give away the files — not even free products — or pass your copy to anyone else.
- ✗ **Resell** the Sounds, or use them to make sample packs, MIDI packs, preset banks, templates, loop libraries or instruments.
- ✗ Use the Sounds **in isolation** (as sound effects, stock audio or library music without a real composition).
- ✗ **Train or feed AI** / machine-learning systems, or use the Sounds in AI music generators.
- ✗ Register a Sound, or a track that is mainly our Sounds, with **Content ID** or other fingerprinting systems.
- ✗ Release our **demo tracks** or an unchanged template project as your own song.

> **Layering or processing does not make a Sound your own.** Changing a few parameters of a preset, or combining one-shots with other sounds, does not transfer ownership: the original Sound stays the property of DNBN and is only licensed to you. Credit (“Sounds by DNBN Samples”) is welcome but never required.

## Full licence agreement

The Sounds (samples, loops, one-shots, MIDI files, presets, wavetables and templates in this product, including free products) are **licensed, not sold**, by Daniele Boni, trading as DNBN / DNBN Samples, Rome, Italy. By downloading or using them you accept these terms. All rights not expressly granted are reserved.

**Licence.** DNBN grants the original purchaser a worldwide, perpetual, non-exclusive, non-transferable, royalty-free licence to use the Sounds in combination with other sounds within their own original musical compositions, including songs, remixes, ghost and commissioned productions, soundtracks for film, TV, games and adverts, and live or DJ performance. The licence is for one user only; each additional user needs their own licence.

**Restrictions.** Copying, sharing, uploading, lending, re-selling, sub-licensing or trading the Sounds, in original or modified form, is strictly prohibited. The Sounds may not be used in isolation (e.g. as sound effects or library music), in any competing product (sample packs, MIDI packs, preset banks, templates, sound libraries or instruments), to train or feed any AI or machine-learning system, or registered — alone or in works consisting mainly of them — with Content ID or other fingerprinting systems. MIDI and presets may be used to create parts in your compositions but may not be distributed as files. Templates and demo tracks may not be released as your own work.

**Ownership & termination.** All rights in the Sounds remain with DNBN; processing or layering does not transfer ownership. This licence ends automatically if you breach it, and you must then delete all copies. Liability is limited to the price paid, without affecting your statutory consumer rights. This agreement is governed by Italian law. Questions or extended licences: support@dnbnsamples.com.
